

GIOPHYSICS FOR INTERNATIONAL SCHOOLS

One physics platform. Your whole department.

Curriculum-mapped teaching, class assignments, and recorded student evidence.

01 / TEACHER DASHBOARD

Teach, assess, and follow up.

Set work for a class or learner, attach teaching files, record marks, and inspect progress without leaving the roster.

02 / CURRICULUM MAPPING

Move from course point to lesson.

Dedicated maps for Cambridge IGCSE 0625 and A-Level 9702, AP Physics, and the IB Diploma Programme.

03 / STUDENT ANALYTICS

See evidence, not predictions.

Review recorded completion, answer accuracy, assignments, and marks. Export current reports to PDF or Excel.

ANNUAL SCHOOL LICENCES

Start with one class. Scale without changing tools.

01

Classroom

US\$350 / year

35 STUDENTS / 1 TEACHER

- Full curriculum and learning-resource access
- Assignments, marking, and student records
- Class analytics and downloadable reports

02

Department

US\$900 / year

150 STUDENTS / 5 TEACHERS

- Everything in Classroom
- Shared class and learner management
- Department-wide analytics and reporting

03

Whole School

US\$1,800 / year

UNLIMITED STUDENTS / 10 TEACHERS

- Everything in Department
- School-wide assignments and reporting
- Priority onboarding and support

Unlimited students means enrolled learners at one named campus. USD pricing; invoice or purchase order; no automatic renewal.

EVALUATE GIOPHYSICS

Bring one difficult physics topic.

Ask to see its course map, lesson, teacher workflow, and report output.
